

# T1D Subtyping: Adjusted Rand Index across feature sets and shared HLA signal

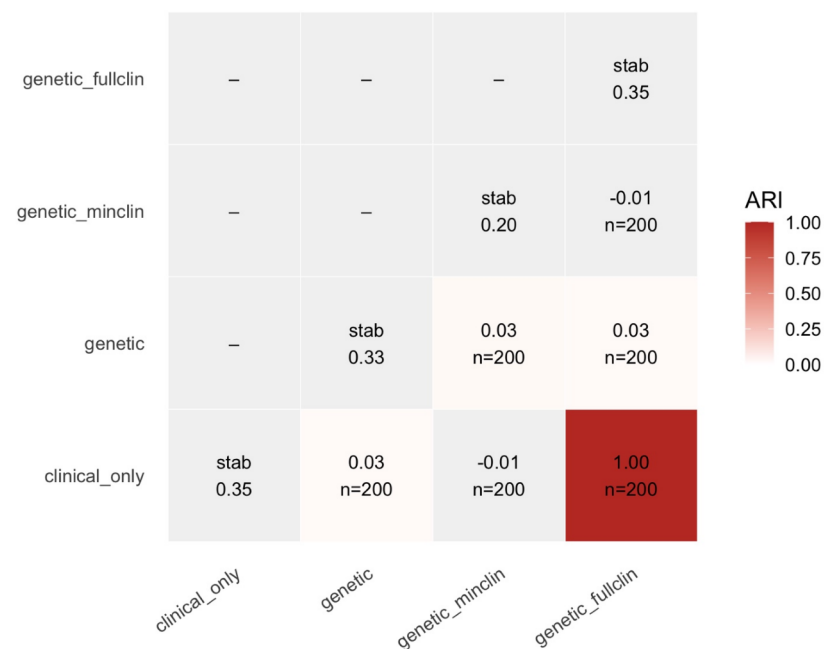

## ARI — dataset A

Adjusted Rand Index — dataset A

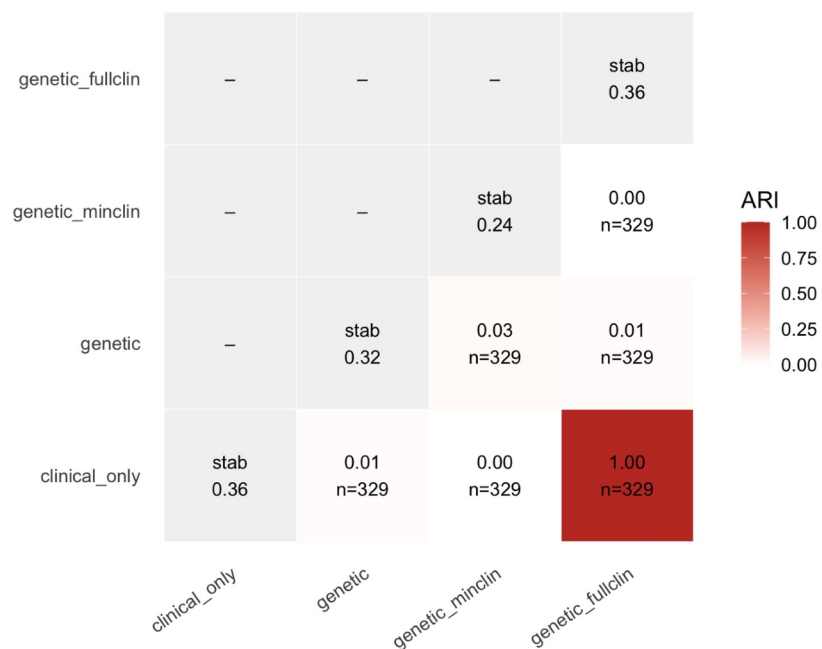

## ARI — dataset B

Adjusted Rand Index — dataset B

## ARI — dataset C

Adjusted Rand Index — dataset C

## Shared SNPs near HLA (Chr6)

Shared SNPs driving genetic clusters (Chr6 / HLA)

Red points = found among top PC1 loadings in ALL datasets (A, B, C)
